

# Our Thanks to Reviewers

The editors of the *Journal of the American Academy of Psychiatry and the Law* wish to thank the following individuals who reviewed manuscripts during 2020. Our peer reviewers form the core of our quality assurance mechanism. Their insight and advice help to sustain The Journal's reputation. We are also grateful to an anonymous ad hoc editor whose contribution allowed us to maintain the integrity of our peer-review process when there was a conflict of interest regarding a submitted manuscript.
