

Our Thanks To Reviewers

The editors of JAAPL wish to thank the following individuals who reviewed manuscripts during 2016–2019. Our peer reviewers form the core of our quality assurance mechanism. Their insights and advice help to sustain The Journal's reputation. We are also grateful to four anonymous ad hoc editors whose contributions allow us to maintain the integrity of our peer review process when conflicts of interest arise regarding submitted manuscripts.

Babatunde Adetunji	Brian Crowley	Annette Hanson
Richard Adler	W. Connor Darby	Susan Hatters Friedman
